

## APPENDIX 2 INDEMNITY AGREEMENT

THIS AGREEMENT is made the  
day of                      one thousand nine hundred and eighty  
BETWEEN the POST OFFICE of the one part and

whose registered office is at

(hereinafter called "The Company") of the other part.

### WHEREAS:

1 THE Company is concerned in the manufacture of certain private equipment described in the Schedule hereto (hereinafter referred to as "the Equipment") which is to be connected with additional Post Office apparatus to Post Office telephone exchange lines hereinafter referred to as "Post Office Installations".

2 THE Post Office has evaluated a model of the Equipment which is acceptable as a Private Attachment as defined in the relevant Scheme made under Section 28 of the Post Office Act 1969 for connection to a Post Office Installation.

3 SUCH (if any) item or items of peripheral equipment as is or are described in the Schedule hereto has or have been evaluated and found acceptable by the Post Office for connection to the equipment and where the context so permits or requires references hereinafter made to "the Equipment" shall include references to any such item or items of acceptable peripheral equipment.

NOW IT IS HEREBY AGREED AND DECLARED as follows:-

1 WHENEVER the Company is concerned with supplying the Equipment

(i) the Equipment when manufactured shall conform to the requirements published by the Post Office Telecommunications Headquarters in Technical Guides Nos. 26 and 30 and in the Prestel Terminal Specification against which the model as described by its unique title in the Schedule hereto was evaluated and found acceptable by the Post Office.

Where there are differences between the requirements of Technical Guides Nos. 26 and 30 and those of the Prestel Terminal Specification, the latter shall prevail

(ii) the Company shall on not less than one year's notice from the Post Office make such modifications to the design and construction of the Equipment it manufactures after the expiration of the notice as may from time to time be necessitated by changes in the design techniques or facilities of the Post Office telecommunication system except that in the case of modifications necessitated by reasons of safety or national security or modifications required to prevent any unauthorised use of Post Office Installations or as may otherwise be reasonably required by the Post Office the Company shall make such modifications as aforesaid to the Equipment it manufactures after the date of
